Banker Has Been in Conference With American Financiers for Several Days

Anthony de Rothschild, of N. M. Rothschild & Sons, of London, has arrived here to make a study of general conditions in the United States, and is making his headquarters at the offices of Kuhn, Loeb & Co.

According to Wall Street reports, the London banker, who is a member of the famous Rothschild family of international bankers, before he returns to England, discuss with financial leaders here the feasibility of ar-

rested candidates in opening private headquarters, soliciting private campaign funds and generally conducting private campaigns, on the ground that such practices are destructive of public discipline, team play, party efficiency and economy. Mr. Morris's resolution calls for a continuing study of the effects of such individual efforts, to see that all campaigns shall be conducted from a central headquarters.

The club authorized Public Service Commissioner William B. Prentiss, who presided in the absence of Charles D. Hilles, to congratulate President Harding on his stand for disarmament resolutions, and for raising veto adopted resolutions of the United States Armory. I. Squires of the Supreme Court,

by Mr. Jerome, in creating the trust that upon the death of his daughter the principal was to be divided among the issue.

Lady Churchill died last June, having entered into two other marriages after the death of Lord Churchill.

The petition to the Supreme Court for the cancellation of the mortgage was made by John Leslie, of London, a brother-in-law of Lady Churchill.

The mortgage was placed on the East Twenty-sixth Street property before it became the property of the Manhattan Club, which purchased it in 1913. It has been assumed to have the mortgage cancelled upon the payment by the club of the principal of \$250,000, which the Manhattan Club has agreed to do. Upon the presentation by Mr. Leslie, the London trustee, of the properly accounted for title, the mortgage will be cancelled in the office of the Register.
